To Whom It May Concern:

FED Corporation recently worked with us to complete additional educational space in our church facility. In working with FED for approximately 18 months, we found them to be professional, competent and a tremendous asset to our church. By using FED, it allowed our lay people to continue their involvement in the ministries here so we did not have to divert manpower.

The FED costs were below expectations and I believe they actually saved our church tens of thousands of dollars through their research and creative solutions to several obstacles unique to our situation.

As our church grows, we plan to expand our building further and FED will be our first choice for a contractor. I would highly recommend them.

Sincerely,
